BALUDiK

Digital treasure hunts

HISTORY

Founded in 2015 in Nantes, France, Baludik combines the accessibility of gaming with the advantages of digital technology to guide foot traffic and highlight points of interest through engaging experiences.

Initially designed to address the challenges of tourism in various destinations, the solution provides an experience that is universal in nature and adapts to evolving usage patterns to today offer unlimited possibilities for use.

A DEDICATED PROJECT TEAM

Baludik brings together three people with a shared passion for innovation and gaming:

- **Jérémie SIMON**, co-director: geographer specialized in tourism with 10 years of experience in scientific and cultural events coordination,
- **Nicolas VANDERLYNDEN**, co-director: IT engineer (EFREI class of 2001) with 15 years of experience in organizational and management consulting,
- **Guillaume NOËL**, technical manager: full-stack developer with 10 years of experience in web and mobile technologies.

Baludik was built around this core and has since grown through a close-knit and multi-talented team..

POOLING TALENT AND PASSION TO CREATE UNIQUE PROGRAMS THAT REFLECT YOUR IMAGE AND PROVIDE YOUR AUDIENCE WITH EXTRAORDINARY EXPERIENCES.

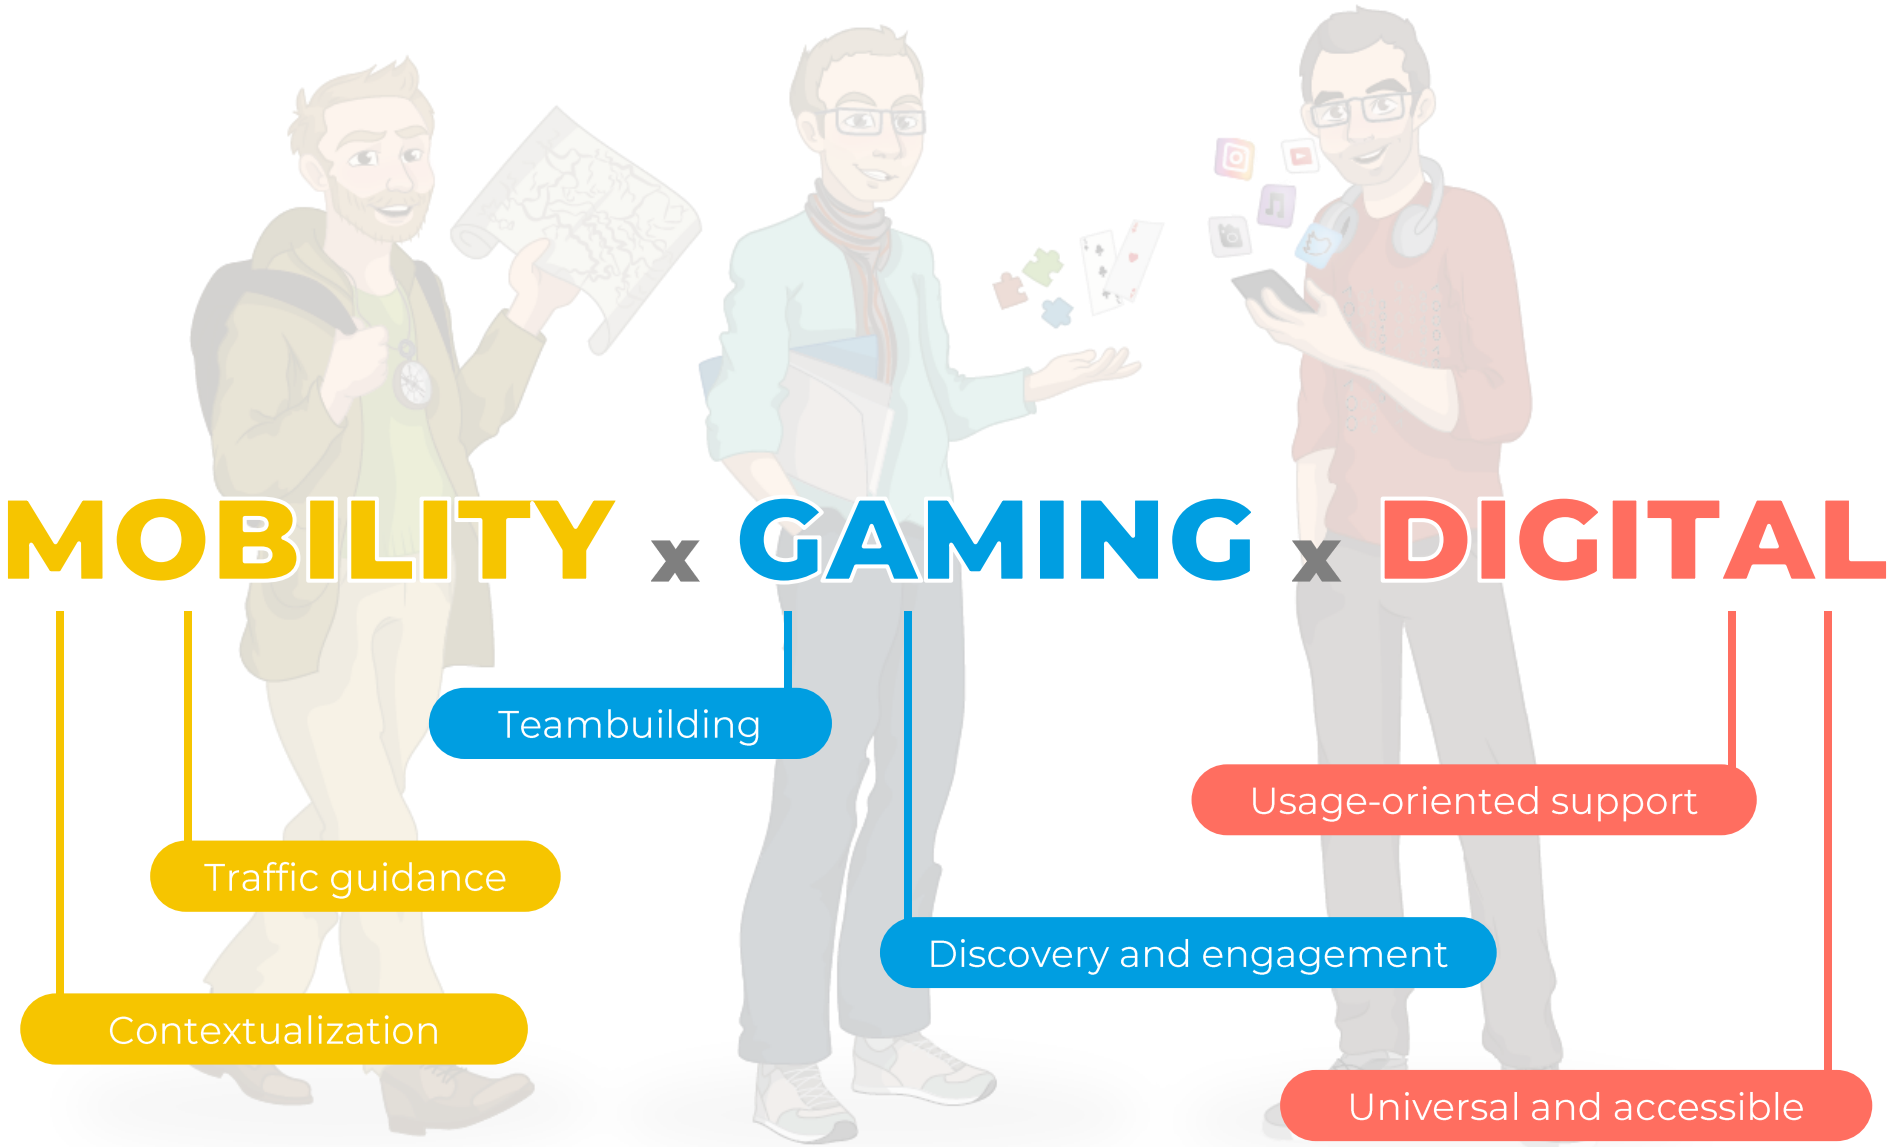
OUR FINDINGS: THE CHALLENGE OF BRINGING TOGETHER

LOCAL STAKEHOLDERS...

- Many sites of interest, despite their appeal and economic potential, are poorly identified by visitors
- Lackluster cultural offerings for a younger public or non-traditional users
- Challenges in directing and managing visitor foot traffic
- The desire to offer distinctive, innovative experiences, which are often costly
- The region's appeal and local perceptions as indicators of success

... AND TARGET AUDIENCES

- Evolving usage patterns largely focused on digital and new interactive technologies
- High expectations in terms of accessibility: educational and fun
- A noted interest in teambuilding activities (popularity of escape games)
- A growing demand for interactive and personalized experiences
- Greater autonomy and independence
- Free or inexpensive!



MOBILITY x GAMING x DIGITAL
Teambuilding
Usage-oriented support

Contextualization
Universal and accessible

DIGITAL TREASURE HUNTS AS A TOOL FOR DISCOVERY

By combining the mechanics of a treasure hunt with the possibilities of digital technology, Baludik helps clients and partners to enhance their heritage and promote their messages in an original and innovative way.

Each route combines the real with the virtual to give visitors a complete and accurate understanding of the location's size in a fun and educational way — a tour becomes an exciting exploration, and an instructive and memorable journey.

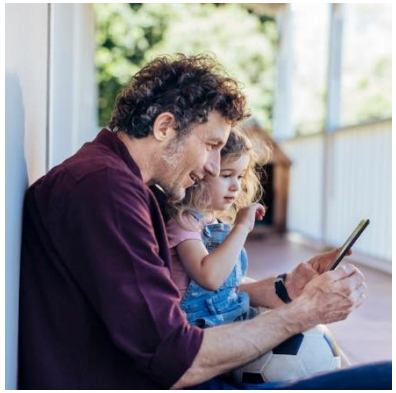
The game mechanics along the way lighten up the experience, keep visitors engaged and provide a real sense of accomplishment once missions are completed.

HOW DOES IT WORK?

Baludik is based on a portal application for end users.

The solution is free to download and lets users access a multi-theme catalogue of hundreds of routes, treasure hunts, and more.

These routes are offered by tourism, culture and event management organizations that can count on the skills of the Baludik team — not just for technical production, but also for scriptwriting, game design and graphic design.



GAMES ARE AN OPPORTUNITY FOR TEAMBUILDING THAT BRINGS PEOPLE TOGETHER, PROMOTING A DYNAMIC IMAGE AND GOODWILL.

FREE, UNIVERSAL AND SUSTAINABLE

The Baludik app is free to download on Android and iOS and is designed to run on the widest range of devices on the market.

Particular attention was paid to the solution's download size, intuitive navigation, accessibility, and energy footprint, in compliance with regulatory framework (e.g. GRPD), to address all user profiles and to provide an experience that would be both inclusive and sustainable.

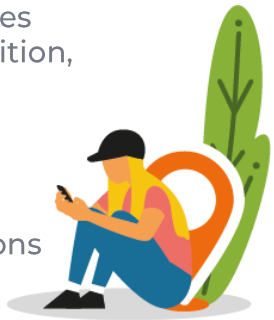
The app is available in several languages to adapt to any location. It also works in areas that get little to no signal, both indoors and outdoors.

INNOVATIVE AND FUN

The app includes a large catalogue of interactive games and fun features — quizzes, puzzles, coloring, and more.

There are also advanced technological features such as geolocation, image and voice recognition, and augmented reality.

These features blend seamlessly into the treasure hunt experience and keep up with changing player expectations and usage patterns.



HOW DOES IT WORK?

1 DOWNLOAD THE BALUDIK APP FOR FREE

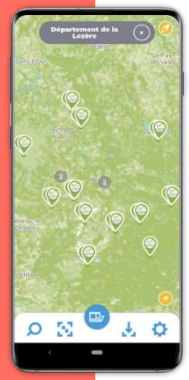
GET IT ON Google Play

Download on the App Store

2 VIEW THE AVAILABLE ROUTES

Launch the app for an interactive map featuring the games and routes geolocated near the user's location.

Users can also access a route or all possible routes in a given destination by scanning a QR code.



3 SELECT A ROUTE

By tapping the marker, users can find general information and the scenario that will unfold.

Content is downloaded so users can live the experience even in areas with little to no coverage.

4 START PLAYING

PLAYERS MUST UNCOVER AND UNLOCK ALL THE TREASURE HUNT'S STAGES TO REACH THE END, WITH EACH STAGE UNFOLDING IN THREE PHASES:

USE THE CLUES

For each mission, one to four clues or instructions are given to help you.

There are several types of clues, depending on the mission: directional or geolocation assistance, details of an image, a riddle to be solved, etc.

COMPLETE THE MISSION

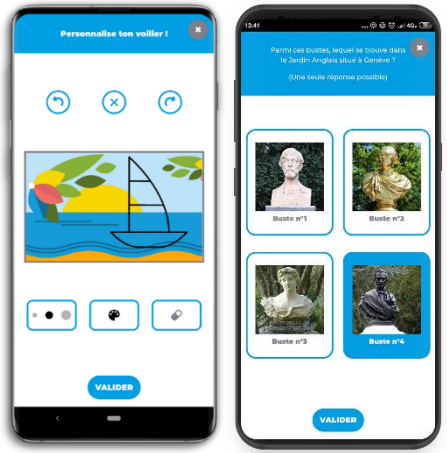
If the purpose is to find a specific place, all you have to do is go there to complete your mission!

You might also have to answer a question, complete a mini-game (e.g. puzzle, coloring, memory), or interact with your environment using image recognition in augmented reality.

UNLOCK CONTENT

Completing a mission lets you access informative content (e.g. text, images, audio). There are also interactive features, like the "augmented panorama", a panoramic map in augmented reality.

You can then move on to the next mission and continue the treasure hunt for the final reward!



THE SERIES OF CLUES, MISSIONS AND CONTENT MEANS IT CAN BE USED IN NUMEROUS WAYS:

- TOURISM AND CULTURE HERITAGE
- PUBLIC AWARENESS
- CULTURAL INITIATIVES
- WINE TOURISM
- BRAND PROMOTION
- COMMERCIAL EVENTS
- SMART CITY
- SOCIO-CULTURAL EVENTS
- EDUCATIONAL MATERIALS
- SERIOUS GAME
- EVENTS INDUSTRY
- ...

...TO MEET THE NEEDS OF A WIDE RANGE OF CLIENTS:

Many organizations use Baludik, including local authorities, tourist offices, museums and cultural sites, higher education institutions, accommodation service providers, amusement parks, infrastructure managers, event agencies and associations.

Nantes Saint-Nazaire Port · Destination Pays d'Uzès Pont du Gard · Office de Tourisme de l'Ouest · Office de tourisme Rueil-Malmaison · transdev · La Région Occitanie Pyrénées - Méditerranée · ICADE · Reims · Center Parcs · Nantes Université · Agence de l'Eau Rhin-Meuse · Loiret votre Département · Ardèche Grand Air Office de Tourisme · Portes de Meuse · ONACVG mémoire et solidarité · ...

USING BALUDIK: THREE COMPLEMENTARY APPROACHES

EVERY ORGANIZATION AND PROJECT IS DIFFERENT, AND THAT'S WHY WE ADAPT TO YOU AND YOUR OBJECTIVES.

The Baludik app lets anyone enjoy the gaming experience, regardless of age or ease with digital technology and directions. We would like to help make all projects a reality.

Our services are based on three complementary approaches that take your specific constraints into account:

- The deadline for your project
- The time you would like to invest in design and follow-up
- The degree of customization required
- The multimedia content already available to you

We can help you by fully managing your program or by letting you handle back-office technical features so that you can design your own productions from A to Z.

AGENCY

We appoint a project manager and mobilize our in-house skills to develop your custom project.

- Options for customization
- Mobilized skills and expertise
- Advanced features

STUDIO

Select from a catalogue of turnkey scenarios that we develop and adapt to your location during your event.

- Easy and quick to set up
- Optimized and proven formats
- Cost effective

CREATIVE SPACE

After a quick training with our team, use our design tool and join the Baludik community of creators!

- Independent design
- Independent management
- Training in good practices

“AGENCY” APPROACH: CUSTOMIZED SUPPORT

INTERESTED IN USING GAMING TO PROMOTE YOUR DESTINATION?
INTERESTED IN UTILIZING OUR SKILLS AND EXPERTISE IN GAME DESIGN TO REACH YOUR AUDIENCE?

Let’s work together as we mobilize the necessary skills in-house to create a customized program, adapted to your audience and specific needs, and meeting your objectives.

Beyond designing games, we can assist you in all aspects of your project:

- Project management and contributor coordination
- Scriptwriting
- Game design (game mechanics development)
- Graphic design: visual identity, main character
- Content adaptation and enhancement
- Digital and non-digital communication
- Additional rewards
- System analysis and optimization post-release

Most projects do not require any specific development — the Baludik solution natively has all the necessary features, enabling us to provide you with usage-oriented support quickly and cost effectively.

VIEW OUR BOOK OF WORK

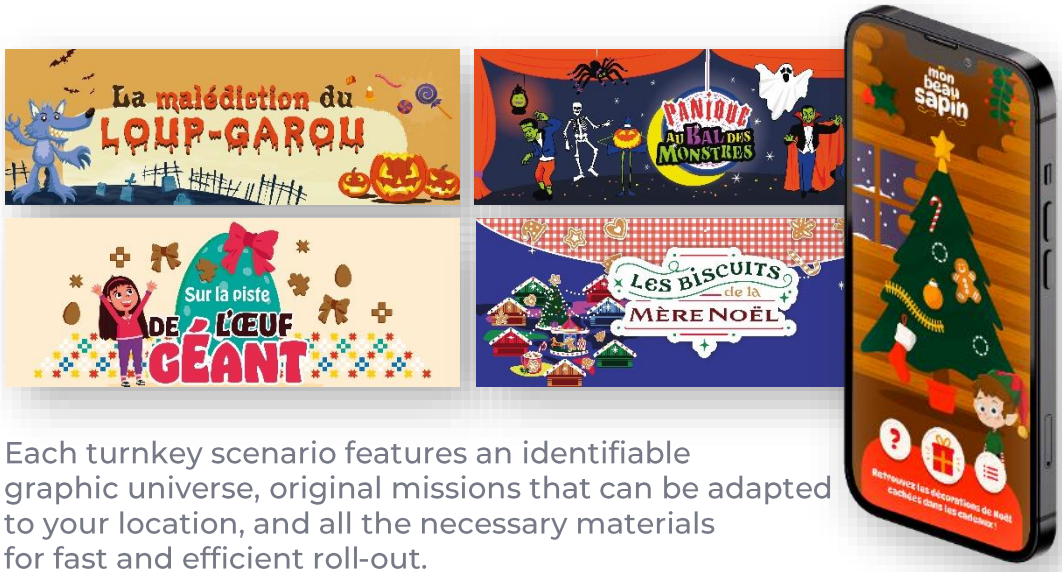
GIVE YOUR CUSTOMIZED PROGRAM A UNIQUE VISUAL IDENTITY BY LETTING US DESIGN A GAME INTERFACE AND CHARACTERS BASED ON YOUR STYLE GUIDELINES.

INTERESTED IN CELEBRATING SPECIAL OCCASIONS WITH A LIMITED BUDGET? LOOKING TO PROMOTE YOUR BUSINESS IN A FUN AND INNOVATIVE WAY?

Our turnkey games let you easily offer audiences fun, connected events and strengthen ties with retailers, all within your budget.

EVENT ENTERTAINMENT FOR SPECIAL OCCASIONS

We have identified three key dates in the calendar which are perfect for a treasure hunt. We regularly offer turnkey scenarios for Easter, Halloween and Christmas.



Each turnkey scenario features an identifiable graphic universe, original missions that can be adapted to your location, and all the necessary materials for fast and efficient roll-out.

LES JEUX DE PISTE CLÉ-EN-MAIN BALUDIK NE NÉCESSITENT PAS DE TEMPS DE VOTRE CÔTÉ ET PEUVENT AINSI ÊTRE DÉPLOYÉS TRÈS RAPIDEMENT !

FORMATS THAT CAN BE USED ALL YEAR ROUND

Whether you're looking to celebrate another special occasion during the year, or just need permanent routes to enrich your local offering, our catalogue has many scenarios.

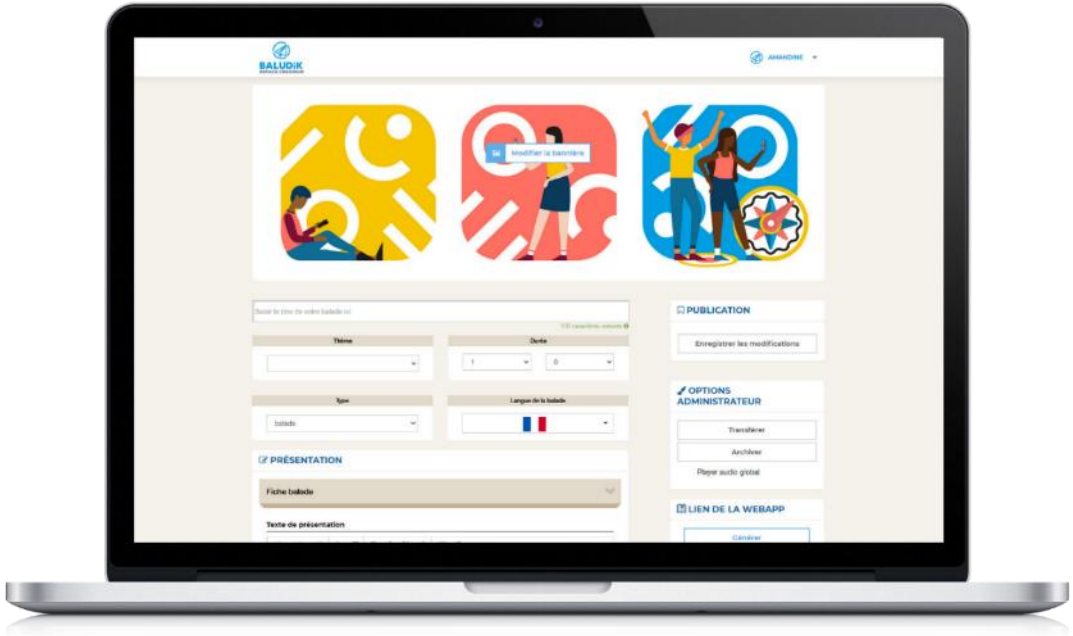
REQUEST OUR SCENARIOS CATALOGUE

“CREATIVE SPACE” APPROACH: INDEPENDENT MANAGEMENT AND DESIGN

FEEL LIKE A GAME CREATOR AT HEART?
INTERESTED IN EDITING YOUR GAMES AND MEASURING THEIR EFFECTIVENESS?

THE BALUDIK CREATIVE SPACE lets you control the visitor experience from a private, secure space.

When you create an account, you’ll benefit from training with our team and the Creator’s Guide (PDF tutorial) to help you get started.



NO TECHNICAL SKILL REQUIRED
The platform is easy to use and works on most browsers

REAL-TIME INDEPENDENT MANAGEMENT
Edit routes live including GPS coordinates, publish, add, modify or delete clues, stages, content

MONITOR ROUTE STATISTICS
Access information on downloads and visits and how they evolve over time

NEW FEATURES ON A QUARTERLY BASIS
Benefit from a scalable solution through regular innovation and optimization

THE CREATIVE SPACE ALSO LETS YOU ACCESS THE BALUDIK CREATOR COMMUNITY: STAY UP TO DATE ON SOLUTION DEVELOPMENTS AND NEWS WITH BALUTIPS.

PLAN A DEMO

THE BALUDIK SOLUTION'S ADVANTAGES AND SPECIAL FEATURES

- Baseware with years-long proven technology and functionality
- No physical installation required
- Possible synergies between locations, stakeholders, partners
- Lower hosting and maintenance costs
- Continuously enhanced features, usage-oriented support
- Portal available in seven languages, game translation into any language
- An active community of users and creators (some 300,000 players per year)

MAIN FEATURES

- Unique, scalable, free and ad-free portal application
- Independently managed via a simple and intuitive creative space
- Game-guided foot traffic and local events/activities
- "Clue – mission – content" game mechanics
- Interactivity, geolocation, image recognition, augmented reality
- Data collection and analysis

BENEFITS AT THE LOCAL LEVEL

- Innovative, cross-functional and scalable solution without physical infrastructure
- Promotion of local attractions
- Service-driven and client-minded approach
- Ability to improve public perception
- User autonomy
- Cross-functional usage
- Universal and intergenerational tool, promoting teambuilding and social inclusion
- Tourist flow management
